

BEFORE HIS HONOUR JUDGE MARK LUCRAFT QC

**IN THE MATTER OF THE INQUESTS ARISING FROM THE FISHMONGER'S HALL
AND LONDON BRIDGE TERROR ATTACK**

**WRITTEN SUBMISSIONS ON BEHALF OF
THE LONDON AIR AMBULANCE
(BARTS HEALTH NHS TRUST)
"THE LAA"**

1. The LAA makes these brief submissions in response to recommendations 28 and 29 contained in the written submissions of the family of Saskia Jones (repeated below for ease of reference).

Relevant recommendations

Recommendation 28: Assess and revise policy and procedure in relation to communications between emergency workers on the scene of a major incident, in order to minimise any delay in access to casualties by medical teams

Recommendation 29: Assess and revise guidance (or training) in relation to the steps to be taken when using a modified triage system in a major incident, including information to be obtained by the medical responder at the scene.

Submissions

2. Other organisations than the LAA are more integrally involved in the policies / procedures / guidance referred to, but the LAA considers that it would have useful input and expertise to bring to any future reviews and revision.

3. Should the Court consider that either recommendation (or any similar recommendation) should be made, the LAA would invite the Court to recommend its input and involvement in the process.
